

Thank you for your patience as we make improvements to your Community Center.

Park Ridge Park District is currently redesigning the ladies locker room at the Community Center to accommodate families. The new space will provide families privacy to change for swimming and other activities.

The anticipated completion date of this project is September 7, 2010.

We appreciate your patience as we continue to provide our residents and members with the best facility and service we can provide. If you have any questions regarding this project, please call J.T. Malak at 847-692-5149.
